## Choice Poetry.

## MUSIC OF EARTH.

There is music, merry music,

Ringing through the forest wild,

Outbursting from all fold of gladness—

'Tis the language of a child!

Where the sweetest voice is heard,

Where the bluest eyes are seen,

Where the soft Spring air is laden

With a wealth of rich perfume,

He is sporting in the sunshine,

With his young heart full of cheer,

And his merry laugh is ringing—

Ringing ever joyously.

There is music, happy music,

Revered softly through the grove,

Brooding peace of affection—

'Tis the mother's song of love!

Bushing rose and weeping lily,

Lead their beauty to her bosom,

But with mingled tears and blushes,

She is still the sweetest flower!

She is dreaming of the absent,

Of the bright bliss and shadows,

And how happy she is feeling—

Gliding gladly all the while!

There is music, solemn music,

Singing through the church aisles dim,

Sweeping high in lofty echoes—

'Tis the sacred hymn of love!

Round the altar they are gathered,

Where the brightness and the beauty

Breathe their earnest vows in prayer,

Lowly kneeling side by side,

O, the air is pure and holy,

And about the church aisles dim,

Softly stealing, richly rolling,

Peaks the moral grand hymn!

There is music, mournful music,

Waiting on the dark slow tide,

Sounds of deep, heart-rending anguish,

'Tis the requiem of the dead!

Neath the shadow of the yew-tree,

Where the drooping hyacinth weeps,

They have laid the loved and lovely

In an early grave to sleep!

There are sighs of crushing sorrow,

Bitter tears are vainly shed,

Mournful voices still are waiting,

Wildly waiting for the dead!

Autumnal moods.

Charles Lamb's Warning.

Charles Lamb, a genius and a drinker,

tells his sad experience as a warning to

young men, in the following language:

"The waters have gone over me. But

out of the black depths, could I be heard, I

would cry out to all those who have but

set a foot in the perilous flood. Could the

young man to whom the flavor of his first wine is

delicious as the opening scenes of life, or

the entering upon some newly discovered

paradise, look into my desolation, and be

made to understand what a dreary thing it is

when a man shall feel himself going down a

precipice with open eyes and a passive will;

to see his destruction and have no power to

stop it, and yet feel it all the way emanating

from himself; to see all godliness emptied

out of him, and yet was not able to forget a

time when it was otherwise; to bear about the

pitiful spectacle of his own ruin; could he

see my feverish eye, feverish with

last night's drinking, and feverishly looking

for to-night's repetition of the folly; could

he but feel the body of death out of which

I cry hourly, with feeble outcry, to be de-

livered—it were enough to make him dash

the sparkling beverage to the earth in all

the pride of its mantling temptation."

If you have a young friend who may

be in danger of acquiring an appetite for

strong drink, invite his attention to Charles

Lamb's dreadful experience.

A Sabbath Morning Meditation.

"The holy time. The same unwearied

orb, at whose rising the olden Nays came

to the empty grave of the Son of Man wept,

is out again this morning in his glory

"rejoicing as a strong man to run a race."

As he climbs the heavens, earth, man, and

the spring bird, are rejoicing in the golden

beams. How lambent and heavenly they

are falling on hill top and valley. Still-

ness reigns. For the door of traffic is shut,

and the tramps of trade are silent in the

street. There is no hum from the mill

and no ring from the mill. To day the

exchange is still and the pulpit speaks—

Up go the tribes to worship. Silently and

thoughtfully they pass along. The sun-

rays are falling soft and mellow into the

wide open doors of the sanctuary, and the

solemn organ is now rolling its notes along

its consecrated aisles. And in, with the

morning rays, go also the people to worship

the God who scatters them. How it does

one good, and inspires him with holier feel-

ings, and makes his heart better to see them

enter. To be sure, the worship may be

imperfect, and not a little erroneous. But

the worshippers are before God, and he is

speaking to them. Possibly enough, the

pulpit ministration to some may seem little

better than a farce. But far-else as it

may seem, it suggests the Infinite, and His

omniscient spirit is abroad in the congrega-

tion, arousing their religious sentiment and

reproving them "of sin, of righteousness and

judgment." And as I see them come out,

my heart beats gladder, with the hope

that they are better than when they went in.

## Plans of the Mormons.

The New Orleans Picayune has a very intelligent correspondent accompanying the Utah expedition. He expresses the opinion that the Saints will not show fight, but will emigrate next spring to the Sandwich Islands. The writer says:

I am told by gentlemen in our camp, who have resided long in Salt Lake City, and are well acquainted with the Mormon population, that the guerilla bands now on Green river and in its vicinity comprise the elite of fighting men whom brother Brigham can bring into the field. That they are nearly all Americans, and so far from being the dupes of the Mormon prophecies and apostles, are desperadoes and outlaws, who believe in neither God nor Devil, but adhere to Mormonism for the license which it allows them. At least three-fourths of the Mormon population of Utah, however, are foreigners, a large number of whom are represented in more dapper and similitudes, with not the least proclivity in the world for bloodshed and butchery. The Mormon leaders, I think, contemplate making good their escape in the spring to the Sandwich Islands, where they have already a numerous organization. It would not take Brigham long to root out and uproot King Kamehameha, and to cause himself to be crowned king in his stead. There he could have full sway, with no federal governors, judges or armies to molest him or make him afraid.

**The Mormons and the Indians.**—The Santa Fe Gazette has received reliable intelligence from the Conchos to the effect that the Tabamache and Mateche Utah Indians are giving unmistakable signs of hostility, and openly declare their enmity to the Mexicans and Americans. They say that the Mormon "tata" is worth all the other "tatas," as he gives them kags of powder and boxes of guns, and that he could whip the whole world.

There is not a doubt that Brigham Young is exciting these Indians to hostility against our government, and that they are likely to be troublesome. From the Conchos to the Mormon settlement it is but a few days' travel, and the Tabamache live as much in Utah as in New Mexico. The inhabitants in the Conchos apprehend danger from these Indians so soon as the snow disappears and the grass begins to grow.

The Gazette states that the difficulties which have existed for some time between the Navajo and Utah Indians are now in a fair way to be adjusted.

**Later from Utah.**—Col. Johnston's Design to Attack the Mormons. St. Louis, Jan. 30.—The Independence correspondent of the Republican gives some additional items of intelligence from the Utah army.

Capt. Marcy, who had been dispatched to New Mexico for salt, was expected back by the middle of April.

As soon as he arrives and the transportation has been effected, Col. Johnston intends making an effort to enter Salt Lake City. Col. Johnston's impression, from the demonstrations made by the valley troops, was that a fight would result.

Judge Eckel's Court was in session. A number of prosecutions had been made by the Grand Jury, involving business enough to occupy the Court for two or three weeks.

Joseph C. Irwin, bearer of dispatches to the Government, and who brought the news to Independence, reports having met a large number of Arapaho, Sioux and Pawnee Indians, at various points on the plains.

## Proposition from the Mormons.

NEW YORK, February 2.—The Washington correspondent of the Herald says it is reported, on good authority, that President Buchanan contemplates withdrawing the troops from Utah. Mr. Bernhisel, it is said, has submitted a proposition indicating a willingness in the Mormons to colonize some island outside the jurisdiction of the United States, provided the government will purchase at a fair value the Salt Lake City improvements. Mr. Bernhisel sets the appointment of commissioners to go and arrange terms and details of the matter.

## From Washington.

WASHINGTON, Feb. 2.—It is true that Dr. Bernhisel has had several long interviews with the President relative to the affairs of Utah, and proposed that the troops be withdrawn and a commission dispatched to the Territory to arrange for a settlement of the difficulties. The President, however, rejected rather than received the proposition, which Mr. Bernhisel made in virtue of his power as a delegate from Utah, and not pursuant to instructions from Governor Young. The Doctor maintains that the people are disposed to peace, and would come to any reasonable terms of accommodation.

## Heavy Defalcation.

HARTFORD, Conn., Feb. 1.—John W. Seymour, Secretary and Treasurer of the Hartford County Savings Association, late town on Saturday last, and since he left it has been ascertained that he was a defaulter to that institution in the sum of 100,000, or more. The money has been lost in stock and other speculations. Mr. Seymour was President of the Mercantile Bank, and was considered one of the most upright men in the community. The Mercantile Bank does not lose a dollar by Mr. Seymour, neither, as far as we can learn, does any other institution lose any thing by him, except the Savings Association.

**Terrible Casualty.**—A little lad named Kongor, a pupil in one of the St. Louis public schools, put a package containing about half a pound of gunpowder and some matches in his pantaloons pocket. By some means, while playing with some boys, the matches became ignited, set fire to the powder, and the result was an explosion, which tore the flesh from the boy's legs and abdomen in a frightful manner. His clothes took fire, and he was fearfully burnt. He is not expected to survive his injuries.

**What Next.**—The bogs of Ireland, it is stated, are being made to furnish candles of as pure paraffine as our American coal. There are no less than 2,000,000 acres of this peat land in Ireland, and the yield is as good as so much coal would be expected to give. The peat is from twelve to forty feet thick. The candles are found now in this country and are said to be as good as wax.

## Further Particulars of the Great Earthquake at Naples.

So far back as the 7th of December, during the night, a loud rumble underground had been heard like the report of a great mine being blown up. This was followed by a trembling of the earth. In the commune of Belin, the earthquake of the 16th leveled hills, turned the land over, and formed deep valleys. In half an hour he fore the first shock took place, a light, as that of storm, hung over the country, and a strong exhalation of sulphur was perceived. On the following morning, after the double shock, and the thunder, about two miles distant from the shore, a piece of ground, consisting of nearly 500 morgen, was found encircled by a trench from 10 to 30 palms deep, and of the same width.

The official journal of last night says:—"The description which the Intendente of Basilicata sends us is such as to draw tears at every word. The details are too awful to report publicly, but the disaster is cruel beyond conception. People speak confidently of 30,000 persons and upwards [officially] having been destroyed, and of fully 250,000 persons [officially] being homeless." And to remedy these evils, scarcely anything has been done. Fifteen days after the time, bodies were rotting under the ruins. Some people were taken out alive on the eighth day; pigs had half eaten the bodies of children who were lying exposed without any one to help them.

## Execution of a Murderer.

FREDERICK, Md., Jan. 29.—Philip Hawkins, the negro who was convicted of the murder of another negro man some months since, was executed here to-day, at twenty minutes past twelve o'clock, in the presence of an immense multitude, probably numbering 20,000. The body hung for twenty-five minutes. His neck was instantly broken by the fall, and animation was extinct in six minutes.

Before his execution he addressed the vast multitude in a calm and clear voice, betraying no emotion, but looked pleasantly on every one and maintained the firmness of a hero to the last. He has made a confession, in which he acknowledges committing the crime whilst under the influence of liquor. There was no accident or disturbance, but a plentiful sprinkling of pickpockets plied their dishonest craft upon the throng. The conduct of Sheriff Elberts on the occasion was humane but firm.

## A Mule Living Six Weeks without Food or Water.

We learn from a reliable source, that a blind mule belonging to Cyrus Diller, of this place, was found a short time ago, in a hole at the rear bank, on the farm belonging to Mr. Clark, near Littlestown, Adams county, where it had remained for six weeks without any food, without any food or water during the whole time. It appears that Mr. Diller having little or no use for the animal, had turned it out to graze the week before Christmas; and in a day or two afterwards was missing, and never discovered until last week, when it was found still alive, in a hole 8 or 9 feet deep, scarcely large enough to contain it in a standing position. He had it removed immediately and its wants provided for—but the poor brute was too much exhausted and emaciated to partake of any food, and lived only about 24 hours afterwards.—*Hanover Spectator.*

## Excitement at Ligonier, Indiana—A Counterfeit Lined.

INDIANAPOLIS, Jan. 30.—On Tuesday, a mob at Ligonier arrested three counterfeiters, one of whom they deliberately hanged. They were proceeding to execute the second in the same manner when it was agreed by the majority to let the law take its course. The third one, who was guilty of making bogus coins, was delivered into the hands of the United States deputy marshal, and brought here to-day for trial. He was held in two thousand dollars bail, in default of which he was committed to jail.

## Mutiny on Board the Ship Kate Hooper, of Baltimore—Fifty Coolies Shot.

BOSTON, Jan. 29.—Letters received in this city by the steamer Canada, dated Angkor, Nov. 22, report that a very serious mutiny had occurred on board the fine clipper-ship Kate Hooper, Captain Jackson, (of Baltimore) bound from Hong Kong to Havana, with a large number of coolies. The latter, appears, for some cause, broke out into mutiny, and at one time got possession of the lower deck, and three times set the ship on fire. Capt. Jackson and his officers, however, by their determined action, finally overpowered the mutineers and suppressed the flames, but not until they were compelled to shoot some fifty of the ringleaders.

## A Magnificent Structure.—The Victoria bridge across the St. Lawrence, at Montreal, which has been in the course of construction for several years, it is said, will be the largest and finest in the world. It is to be two miles in length. The total amount of masonry in the bridge will be 3,000,000 cubic feet, which, at 150 feet to the ton, gives a total weight of about 22,000 tons. Fourteen of the piers are completed, and it is expected that eight more will be finished next season, leaving only two to erect in 1859. The total weight of iron in the tubes will be 10,400 tons. The bridge, when completed, is estimated to cost the comfortable sum of \$5,000,000.

## A Shattering Feat.—On Thursday afternoon a young lady and gentleman started from Bangor to Hampden, Maine, on a trial of speed. The Whig says "the young man had the longest legs, but the lady spread most canvases and the wind being fair and frost, she beat him by two and a half minutes, and the feat was performed in half an hour. So exhausted were the parties, however, and so strong the head wind to skate back, that they were brought to the city in a carriage."

## Irish Emigration to the United States.—

The Kilkenny (Ireland) Journal says:—"For the last few months persons who left this city as emigrants have returned to their old employments in Kilkenny, and caution the neighbors against venturing to America at present. Several members of the families of those who have left our city have fallen victims to American fever. The story of desolation and death which those poor emigrants relate is fearful, and we hope it may serve as a caution to others to turn their thoughts from emigration and cling to the rock of the old country."

## Gone to China.

The Rev. M. Simpson Culbertson, who has labored in China, for twelve years, as a Missionary, and who returned a year or so ago, to Chambersburg, his native place, to recruit his health, again left, on Monday last, with his family, to recommence his labors in that interesting mission field.

## Lieut. Gen. Scott, it is now stated,

has abandoned his contemplated trip to California, because of the adverse action of the Senate on the bill to increase the army as urged by the President.

## The Democratic State Committee

have resolved to hold the next Democratic State Convention at Harrisburg, on the 4th of March next, to nominate candidates for Canal Commissioner and Judges of the Supreme Bench.

## THE ADAMS SENTINEL.

GETTYSBURG:  
MONDAY, FEB. 6, 1859.

## The Lecture before the Young Men's

Christian Association, on Monday evening last, was delivered by EDWARD McPHERSON, Esq. The evening was a very interesting one, and the audience was, in consequence, not so large as customary. We were not present, but we have heard the Lecture spoken of as being excellent, confirming the high reputation of Mr. McPHERSON as a scholar, and talented writer.

The Rev. Mr. BOWEN will lecture to-night in the Presbyterian Church. His subject—"Our Country: Its Advantages and Responsibilities."

D. McCONAUGHY, Esq., will deliver the succeeding Lecture in Christ Church, Monday, Feb. 15.

Since the above was in type, we have been requested by the officers of the Young Men's Christian Association to announce that Mr. EDWARD McPHERSON has consented to re-deliver his Lecture on the Influence of the Christian Principle upon Government, on Saturday evening next, at 7 o'clock, in the Presbyterian Church.

We have no doubt that those who were prevented by the unpleasant weather from hearing Mr. McPHERSON on Monday evening, will be pleased to learn that he has yielded to the request. Saturday evening has been designated, in order not to interfere with the regular course of Lectures.

## Attempt to Kidnap.

An alleged attempt to kidnap a colored woman of this place, was made on Tuesday night last. The persons implicated are three of our own citizens, BUCKINGHAM, SNYDER, and TUCKER—all young men, with families. The colored woman was employed to wash for the latter individual, and was delayed by various causes until after night, when passing up an alley on her way home, she was seized by one or two of the party, but being a woman of strong muscular power, she successfully resisted them, and her cries frightening the bold aggressors, she escaped. They had a carriage in waiting in the alley, ready to take her off. Buckingham was arrested the next day; Snyder and Tucker have decamped to parts unknown. Such is the version of the affair, as the colored woman has made out to.

P. S. Mr. Buckingham was brought up on habeas corpus before Judge Ziegler on Saturday evening, and the evidence being insufficient to criminate him, he was discharged.

## On Thursday evening last, a colored

man, named JACOB JONES, who has been suspected by the colored population of this place, of being implicated in attempts to enslave some of his color, was attacked by several women and children, in the street, and received a terrible thrashing. He was rescued by a police officer, or the consequences might have been serious.

Our friend FRANK HERST, as will be seen in our advertising columns, has gone into the Lumber and Coal Business at New Oxford. He is a first-rate business man, rarely excelled in energy, and whatever he does, he does right. We have not a doubt, therefore, that he will succeed. New Oxford is now an important point for a considerable section of country; and we bespeak for our friend a call from those who may need anything of the kind he will have on hand, or supply. They will find him clever and accommodating.

Frederick A. Schley, Esq., a distinguished lawyer of Frederick, died in that City on Friday last.

The Baltimore banks resumed specie payments Friday last; and the Banks of the District of Columbia also.

We have heard it rumored that the session of the U. S. House of Representatives was prolonged till after midnight of Friday, and broke up in a general fight. We have no particulars.

The Rev. Beverly Waugh, Senior Bishop of the Methodist Episcopal Church, was lying very low, at his residence in Philadelphia, on Thursday last. He was attacked on the Saturday previous with apopleptic symptoms, which, it is feared, would eventually cause death.

## Gone to China.

The Rev. M. Simpson Culbertson, who has labored in China, for twelve years, as a Missionary, and who returned a year or so ago, to Chambersburg, his native place, to recruit his health, again left, on Monday last, with his family, to recommence his labors in that interesting mission field.

Lieut. Gen. Scott, it is now stated, has abandoned his contemplated trip to California, because of the adverse action of the Senate on the bill to increase the army as urged by the President.

The Democratic State Committee have resolved to hold the next Democratic State Convention at Harrisburg, on the 4th of March next, to nominate candidates for Canal Commissioner and Judges of the Supreme Bench.

**THE RAILROAD.**—In another column of our paper will be found an advertisement of the Gettysburg Railroad Co., for a loan of money on their Bonds. We cannot see why capitalists at home, should not at once invest their money in these Bonds instead of sending it abroad to be invested in securities about which they know but little. There is an undoubted security, which will yield, to the person investing, seven and one-half per cent. per annum on his money, free from taxation and payable semi-annually, and a premium in addition, of twenty-five per cent. From the report of the Officers, published in our paper a few weeks ago, it will be seen that this Company is really in a prosperous condition, and that the Bonds have a substantial basis beyond a doubt. A portion of the road is already bringing in a revenue, which, we are informed from calculations which have been made on the whole issue of Bonds. But six miles of the road are now in operation and this is about one-third of the entire length, then as soon as the balance is finished, which will be during the coming summer, how much greater revenue will be brought in to the Company. There can, therefore, be no doubt about the sufficiency of the security, and the people of our county should not let a single Bond be sold abroad. Almost every farmer could spare one hundred dollars, some five hundred, and others thousands. Let them then embrace this opportunity of making a safe and profitable investment.

## Property Sold.

The Farm and Mill property of Joseph Cline, containing 95 acres, in Menallen township, was recently sold for \$14,112. Henry Eppelman purchaser.

The Farm of Henry Eppelman, near Beadlersville, was sold for \$6,000, containing 102 acres. Joseph Cline purchaser.

The Banks in Pittsburg resumed specie payments on Monday last.

## Bank Resumption in Philadelphia.

The Banks of Philadelphia have virtually resumed specie payments. No difficulty, it is said, is experienced in obtaining gold and silver at any of them. The Inquiry is it is probable that a formal and general resumption will be announced in a day or two. There is indeed no practical impediment in the way, and the public are fully prepared for such a movement.

Dennis Claude, Esq., American, was re-elected State Treasurer, by the Maryland Legislature, on Tuesday last, over the Hon. Edward Hammond, the candidate of the Democrats, and Samuel Jones, Esq., was chosen keeper of Chancery Records.

## A Desperate Proposition.

O. Jennings Wise, a son of Governor Wise, of Virginia, having made an abortive attempt to assassinate R. Ridgeway, Editor of the Richmond Whig, the latter, upon subsequently ascertaining who his assailant was, sent him a desperate and blood thirsty challenge, in which occurs the following proposition:

"I propose you and I select only one friend each, and with one pair of pistols, we shall all meet in either your office or mine, at an hour hereafter designated—that after this meeting and the door being locked, you and I shall be severely blindfolded—that then the seconds shall load one of the pistols and leave the other un-loaded—that they shall next determine by lot the choice of pistols—that the pistols shall then be handed to us, and that yours shall be placed directly against my breast, and mine against yours—that, next and finally, at the giving of the word, we shall both pull trigger and let the consequences take care of themselves."

Mr. Wise, jr., was not fool enough to fight on such terms, and therefore declined for the following reason:

"Whenever you shall send such a challenge as I can accept consistently with the just sense of honor and propriety recognized by the established usage, I shall then be authorized to accord to you the satisfaction which you may desire. Such a challenge must not include conditions invasive of my rights as a challenged party, nor must it embody propositions inconsistent with the usage which prevails among gentlemen of honor."

## And so the matter ends.

**Hoops.**—At Senator Douglas' late ball in Washington, several of the exclusives, it is said, had small hoops in the bottoms of their pantaloons. They were made of steel, and gave the pants a very pretty set around the boot.

The Grand Jury at New Orleans have found a true bill against Gen. Walker, Colonel Anderson, and others, for violation of the neutrality laws. They have been held to appear on the fourth Monday in April.

**Ice at Albany, N. Y.**—The Albany Journal, of Monday evening, says:—"During the past twenty-four hours, ice has been forming rapidly in the river, and is now being cut from eight to ten inches in thickness. Those who have been looking for a short crop for the ensuing season, will, we fear, be sadly disappointed. Although the weather was delightful and healthy, the ice gatherers could not have more favorable weather than they have now."

Ex-Governor Grimes was elected United States Senator, from Iowa, by the Legislature, on the 25th, receiving a majority of twenty-one votes. He will succeed Hon. George W. Jones, whose term will expire in 1859.

LANCASTER, PA., Feb. 2.—Hon. Thos. H. Barrowes, the independent citizens' candidate for mayor, is elected over Zim-merman, the regular democrat, by a majority of 25 votes.

## Beware of Impostors.

A man who calls himself NATHAN JACOB SHEFFIELD, came to the residence of the subscriber on the 12th of December last. He had, for some time, during the forepart of last summer, been working for Mr. C. Wharton, Jr., at Chestnut Grove Iron Works, but did not remain there long. He told us that his reason for leaving was, that there was a rough set of hands there, that some of them used profane language, and some brought liquor there and got drunk, that he was a member of the Lutheran Church, and wished to live a religious life, and that such a society did not suit him. He said that after leaving Mr. W.'s he went to Baltimore and hired in a Bakery, but that the firm which had employed him broke up, and he lost his wages, that he was out of employment, and almost out of money, and would gladly engage in any business during the winter. He knew that I had been selling books, and he proposed selling books for me, and assisting me with my work, when not out with books. To this proposal I agreed, and sent him out on the following Tuesday. On Friday he returned, having sold some and engaged a number of Family Bibles, and other books, which he said, he had promised to deliver the next week. On Monday he helped us butcher, but on Tuesday morning he seemed very anxious to get off with the books, he said he had promised to deliver them that week, and he always liked to keep his promises. The books were too heavy to carry, and he asked for my mare and carriage to haul them. I gave him my mule and carriage, and filled several trunks with such books as he wanted, and instructed him to return on the following Saturday. He promised to do so, but has not yet returned. He disposed of the books, left the mule and Carriage at Mr. Wattles' Tavern in Gettysburg, where he registered his name, N. J. Sheffield, of Mechanicsburg, and having bought a new suit of clothes at Samson's store, he took the last of the books in his Carpet-bag, and disappeared on Thursday the 31st December last, leaving his bill at the tavern to be paid by his employer. Our loss is at least \$100.

Said Sheffield says he is a native of France, that his parents died when he was young, that his guardian brought him over to Boston and put him to school there, where he studied French, English, German and Hebrew. He speaks and writes these languages,—speaks English pretty fluently, but with a foreign accent. He is about 23 or 24 years of age, 5 feet 7 or 8 inches high, and has ink marks made on his left wrist, which he says were put on when he was a schoolboy. The public are hereby warned against the impositions of said Sheffield.

**Another New Territory.**—It is proposed to make an effort for a Territorial organization of the upper peninsula of Michigan, under the name of Superior or Mackinaw. The country embraces some sixteen thousand square miles, abounds in mineral resources, and has an estimated population of ten thousand. At present it is a part of the State of Michigan, from the main portion of which, however, it is separated by the Straits of Mackinaw, and with which it has no common interest.

A Chinese woman was baptized in the First Presbyterian Church, Pittsburg, last Sunday. She was about forty years of age, and had been nurse to the children of Rev. Dr. Happer, a returned missionary from China. She took position before the pulpit, in the curious costume of her country. A fervent prayer was offered. Dr. Happer read over first in English the questions he intended asking, and then repeated them to her in Chinese. She was then baptized as a convert to Christianity. She intends to return, with Dr. Happer and family, to China, where she may be the instrument of doing much good.

## Great Drought in Germany.—

The N. Y. Sun says:—"Accounts from the Hartz mountains state that the district of Clausthal is suffering from an unprecedented dearth of water; the natives had left off washing their hands and faces more than once a week, and the authorities of the place have imposed a fine of two thalers on all laundresses who persist in pursuing their trade. Great quantities of cattle were dying from thirst, and a few of the community, who are unable to forego cleanliness, use beer to perform their ablutions."

## Important to Postmasters.—

The Postmaster General has recently decided that if postmasters do not give publishers of newspapers notice that their papers remain in the post office without being taken out by the subscribers, within five weeks, they are liable for pay.

**The Composition of a Legislative Body.**—Of the thirty-three members of the Pennsylvania Senate, fifteen are lawyers, six farmers, three merchants, &c. Of the one hundred members of the House thirty-six are farmers, twenty-two lawyers, six physicians, five editors, two merchants, one whose occupation is said to be a justice of the peace, &c. The lawyers and farmers together compose over one half of both bodies.

## Spanish Revenue from Cuba.

Gen. Caceres appears to be quite a successful financier. It is stated that he will send to Spain this month the sum of \$6,000,000, part of which is the surplus of 1857, and revenues of this year's taxes, now being collected beforehand. Formerly the head tax on negroes was paid every six months in advance; now the whole must be paid this month. The amount levied on the slaves and free negroes is about \$600,000.

## Another Victim of the National Hotel

Disease.—Col. Charles A. Jones, contractor for the building of the custom house at Chicago, and Milwaukee, and for the Washington aqueduct, died at Rochester, N. Y., on Monday last. His health, it is stated, has been impaired ever since his visit to Washington at the time of President Buchanan's inauguration.

## United Brethren Conference.

The Pennsylvania Conference of United Brethren in Christ was recently held at Windor township, York county.—Bishop Glossbrenner in the chair. Ex-Bishop J. Erb was elected assistant chairman and W. B. Raber secretary. A collection for missions was taken up and \$1,000 contributed. The conference has 70 frontier and foreign missions, and about an equal number of home missions. Alexander Tripner and Isaac C. Weidner were ordained to the offices of elders in the church. The following are the appointments for the current year:

Z. A. Coleslock, presiding elder. Green-castle Circuit, James M. Bishop and S. L. Minnich; Chambersburg Station, W. B. Raber; Mercersburg Circuit, J. Orider; Rocky Spring Circuit, S. Esterline and H. Peterboof; Big Spring Circuit, J. C. Weidner, and J. P. Bishop; Carlisle Circuit, J. W. Burd; Perry Circuit, J. Conner; Path Valley Circuit, Wm. Omen; Shoop's Station, J. Dickson and — Ham-melbaugh; Liverpool Circuit, J. Erb; York Station, J. C. Smith; Baltimore Station, H. Shroop; Baltimore Mission, N. Altman; Philadelphia Station, G. W. Showman; Lancaster City Station, W. Humminger; York Circuit, J. S. Wentz and J. B. Jones; Manchester Circuit, H. Brown; Hanover Circuit, Alex. Tripner; York Springs, J. G. Shouff and F. Grim. A. Owen, editor of the Christian Repository and Ladies' Magazine, Dayton, Ohio.

## Another Suicide.—

The Lancaster papers announce another suicide.—Mr. Frederick Bauman, long a resident of that city. He hung himself. Mr. Bauman was about 50 years of age, and was well known throughout the city, more familiarly by the sobriquet of "Squire Bauman." As yet no reason is assigned for the rash act, he never having indicated any intention of destroying himself.

Some of the English journals having published articles assailing Russia of a design to assume an aggressive attitude in Asia, the St. Petersburg Gazette, in a series of articles upon "the mission of Russia," boldly avows and claims that the mission of civilizing Southern Asia belongs to England, so the mission of civilizing Northern Asia belongs to Russia, for reasons assigned. It adds that any attempt to interrupt Russia in the fulfillment of that mission would end in the destruction not of Russia, but of the Power making the attempt.

The Baltimore Clipper confirms the statement some time since made by John Mitchell, that the British convicts at Bermuda, when their terms expire, are placed on board ships bound for Baltimore, and their passage paid to that port. It adds that a cargo of them have been known to be on their way to the poor-house within an hour after their disembarkation.

## Another Disastrous Fire at Dubuque.

The Lawrence block, the largest and most extensive structure in Dubuque, was destroyed by fire on Saturday night week. Loss \$110,000; insured for 70,000. This makes the second great fire in that city within a week. The St. Cloud hotel, valued at \$100,000, was destroyed a number of days since.

## Lieut. A. K. Allen Supposed to be Lost.

We learn that about two weeks ago Lieut. Allen, with a small party of men, left Fort Dallas for Fort Snare. When they reached the Simcoe mountains there was a severe snow storm raging, and the men fearing they would not be able to make the trip in safety returned, leaving Lieut. Allen to pursue his journey alone. Since then he has not been heard from, and it is supposed he perished on the mountains. He had about \$35,000 in cash with him.—*Oregonian.*

## A Warning to Slenderers.—

The legal punishment for slander in Orange county, N. Y., is rather severe, though occasionally just enough. It appears that some three months ago, a woman having a husband and family, goaded to desperation by a man who boasted that he was her paramour, publicly shot him with a pistol, the bullet knocking out several of the fellow's teeth, and inflicting a severe wound. She was indicted for an assault and battery with intent to kill, and tried at the Orange county Court last week. The jury, after an hour's absence, returned a verdict of acquittal, which was received with great applause by the audience. Did all slanderers of this sort get their deserts, there would be quite a number of toothless individuals about.

## Another Victim of the National Hotel

Disease.—Col. Charles A. Jones, contractor for the building of the custom house at Chicago, and Milwaukee, and for the Washington aqueduct, died at Rochester, N. Y., on Monday last. His health, it is stated, has been impaired ever since his visit to Washington at the time of President Buchanan's inauguration.

## A Noble Set of Farmers.—

Sixty-four farmers living in and about Middletown, Conn., have given notice to the citizens that on Monday, at 11 o'clock, they will come in with their oxen, laden with wood and provisions for gratuitous distribution to the poor, under the management of the mayor and committee of citizens.

## From Washington.

WASHINGTON, Feb. 2, 1858.

A message was received from the President, transmitting the Lecompton Constitution, which was read. It quotes the severe language of Governor Walker, when in the Territory, declaring "the City of Lawrence as being the hot bed of abolitionism." It says the dividing line in Kansas is not between the two great Political Parties of the country, as in all other places, but it is between those who are loyal to the Government and those who are endeavoring to destroy it by force and usurpation. It says, Kansas is at this day as much a Slave State as Georgia and South Carolina, and recommends the admission of Kansas under this Constitution as the only means of restoring tranquility.

The people, it says, can amend it hereafter as they think proper.

## Grave Charge Against the Government.

We had heard the charge made, previous to General Walker's arrest, that the United States Government winked at his violations of the neutrality laws, and that the sailing of his unfortunate expedition was assisted and hastened by the U. S. authorities themselves. The removal of the New Orleans custom-house officer for allowing Walker to escape disproved that charge.

But a graver one is now boldly made by the filibuster, in propria persona. At Mobile, a few days since, he preferred a singular charge against the National Administration, namely, that the opposition of the government to his expedition for the conquest of Nicaragua, was attributable to the rejection of a proposition made by Mr. Buchanan and his constitutional advisers, that he (Walker) should go to Mexico, and excite war there, with a view to the acquisition of that Territory. This is a most serious allegation, and it will doubtless elicit a reply in an official form.

## Grand Jury Report.

To the Honorable the Judges of the Court of Quarter Sessions of the Peace in and for the County of Adams:—The Grand Inquest, having visited the County Prison and the Alms House, take pleasure in making Report to your Honors, that they have found everything in a condition calculated to leave a favorable impression on our minds. The new Furnace in the Prison seems to work well, and admirably answers the purpose designed.—The prison wall we find insufficient in several places. The Prison exhibits evidence of cleanliness and proper attention, on the part of the Sheriff and his family. At the Alms House, we also found similar evidence of devotion to duty on the part of the Steward and his family. The buildings and grounds are in good order and every effort seems to be made to carry out the beneficent purposes of the institution: It gives us pleasure thus to be able to testify to the good management of both Prison and Alms House, and to tender our acknowledgments to both Sheriff and Steward for their courteous deportment in furnishing us every facility to examine the departments under their charge. Jan. 21. J. J. KUHN, Foreman.

THIS old established and popular House, situated on the corner of Chambersburg and Washington streets, in the beautiful and thriving town of Gettysburg, has recently undergone extensive and important repairs, which render it one of the most spacious and handsome Hotels in the interior of the State. Another story has been added to the entire building, front and back, making it now a three story edifice of handsome exterior.
